The Innovator

From the President...

I'd like to take this opportunity to thank our existing and new customers, associates, vendors, business supporters and our friends, for all helping to make 2009 a positive year for expansion, improved operational performance, and fiscal growth.

To support our customers growing needs we completed a new, 12,000 square foot liquids filling plant in the second quarter with the addition of packaging tanks, semi automated filling lines and various support equipment. Following our September strategic planning session we purchased an additional plant site four miles from our current Cypress Street facility. The new facility, Gil Harbin, is an 110,000 square foot brick and concrete building located on 10.25 acres with rail access.

In November, Mike Murphy joined us as our Gil Harbin Plant Manager, (see his bio on the following page). We are also pleased to announce that Brooke Downing rejoined CJB Industries at Gil Harbin to facilitate logistics and inventory. The new facility is currently set up with blend tanks, packaging tanks, a 120 Liter wet mill, filling area for liquids, and a dry packaging area. With this added manufacturing capability, we are able to expand our service to existing customers and help them grow and expand.

We are hopeful that 2010 will be a year of economic recovery in our country, but recognize our growth has been a blessing and know that with help, continued hard work, and by remaining true to our core values we will be successful. Thanks again for your continued support and we all extend our very best wishes to each of you for 2010.

Best Regards,

A handwritten signature in red ink, which appears to be "R. Clinton Beeland, Jr."

improvement”*

"Our Mission is to be the manufacturer-of-choice within our chosen markets through ensuring conformance to

Mike Murphy

Gil Harbin Plant Manager

Mike Murphy joined CJB Industries in October as the Plant Manager for CJB Industries New Gil Harbin Plant. Mike holds a degree in Chemical Engineering from the University of Michigan. No stranger to the Chemical Industry, Mike has spent more than 20 years in manufacturing management. Prior to joining CJB Industries, he worked over 12 years in production management roles with Arizona Chemical. Mike's background also includes over 12 years with Monsanto in various engineering and manufacturing roles. Mike's background in project management and process start-ups will be called upon as the new facility is designed, installed and started up in early 2010. Mike has worked at several sites that have earned and maintained ISO quality certifications and has extensive knowledge of systems required to ensure customer's needs are met.

Mike and wife Lisa have three teenagers living at home, Jason, Laura and Adam. They have lived in Valdosta for 10 years. Mike and family are very excited about the opportunity to be a part of a growing company that has an outstanding focus on customers.

To contact Mike please email him at mmurphy@cjbindustries.com or call 229-293-0800.

Our **Second** Plant Site

We are all excited and pleased to announce that in the fourth quarter '09 the corporation purchased a 2nd plant site in Valdosta. Four miles from our existing facilities, the "Gil Harbin" plant, (named for the industrial drive on which it is situated) is a 110,000 square foot brick and concrete constructed building sitting on a 10.25 acre plot with access to rail. Mix tanks, packaging tanks, a 120 liter wet mill and liquid and dry filling line equipment have been installed. With our recent start-up, we have now begun formulating, processing, filling and packaging Herbicides (SC's, EC's, and solid repackaging) and industrial products. Our plans at this site are to increase services to our customers in Herbicides and Industrial products by expanding our existing capabilities and developing new ones. We now have the space needed to help our customers in these needs as well as future needs.

our quality, environmental, health and safety policies and objectives"

Manufacturer of the Year Award

On November 12th, 2009 CJB was named the Manufacturer of the Year at the Valdosta-Lowndes County Chamber of Commerce's Awards Ceremony. Candidate companies were judged on their economic impact on the community, corporate citizenship and stewardship, workplace excellence and reputation. Speaking on behalf of CJB, our President Clinton Beeland emphasized the company's core values which include respect, integrity, trust, excellence and stewardship, (RITES). Coming in second was Archer, Daniels, Midland Corporation (ADM).

Jason Taylor

Biography

Jason Taylor joined CJB in September '08 and in January was promoted to Assistant Production Manager with operational responsibilities for both Liquids and Solids manufacturing at our Cypress Street Facility. Prior to this, Jason was our Team Lead Person in the Liquids Processing Area. He came to us with 14 years manufacturing experience, more recently in a supervisory role, with Weyerhaeuser Wood Products. Jason benefited from leadership and technical supervisory training while there. Jason served on active duty with the United States Marine Corps before joining Weyerhaeuser. Jason and his wife Julie are life long Lowndes County residents and have 2 daughters, Marcie and Emily. He is active in his local church, enjoys hunting, fishing and actively supports the local Viking HS Football program.
